

How to Turn Off the Junk Filter in Entourage 2004

Because NOMAD uses the Proofpoint Anti-Spam Anti-Virus solution, it is recommended that Entourage 2004 users within NOMAD turn off their Junk Mail Filtering if it is on. To turn off the Junk Filter in Entourage 2004, perform the following steps:

1. Open Entourage 2004, and from the menu bar click **Tools**
2. Scroll down and click **Junk E-mail Protection**
3. From the window that appears, select the radio button that says “None”
4. Click **OK**
